KIDPRO, Ivan Pejic s.p., Binkelj 38, 4220 Skofja Loka, Slovenia - EU

user manual and warranty

You have bought a product that will enable you relaxing and carefree stay on the balcony, terrace and other open spaces. We wish you a lot of pleasant moments.

USER MANUAL

This manual is an integral part of the product. Please keep it until the end of product usage.

Please read entire manual before usage and make sure that you clearly understand it.

Read this manual before installing the product, make sure that you clearly understand it and that you are able to install the product correctly following the installation manual.

Do not allow anyone to use or install the product before reading this manual.

Remove and dispose of all plastic bags and packaging elements as they can pose a risk to children. Attention: choking hazard!

Safety Netting System helps to reduce risk of accidental fall.

Safety Netting System is not replacement for active child care.

SAFETY PRECAUTION

WARNING!

Carefully follow the product-related limitations listed here, otherwise safety is not guaranteed.

1. The safety net must always be installed vertically.
2. Do not install damaged net or net older than expected lifetime.
3. It is strongly advised not to leave unsecured openings close to installed net.
4. Do not use this net to throw elements into it.
5. Do not use sharp or hot items on the net or near it.
6. Do not climb the net, hang to it or hang other items on it.
7. Do not use this net for purposes other than those suggested.
8. Do not modify and/or incorporate additional parts to the product. Do not install accessories, spare parts or components other than those provided in the package.
9. Carefully test the net tension (slightly push it with your palm) and examine the correct position of anchoring system (profiles) from time to time. Should the net become loose or damaged, replace it immediately.

KIDPRO, safety nets for windows and balconies, Ivan Pejic s.p.

Binkelj 38, 4220 Skofja Loka, Slovenia - EU

T: 00 386 40 565 993 E: info@kidpro.eu, I: www.kidpro.eu

MAINTENANCE

Product does not require specific maintenance.

If the net gets dirty, clean it with damp cloth. Do not use any chemicals.

Life time of the net depends on specific weather conditions: UV-radiation, heat, cold etc. Check the net once in a while. If it becomes damaged, promptly replace it with a new one.

TECHNICAL DETAILS

The product provides additional protection from accidental fall (for windows, balconies, terraces, stairs, mezzanines) and it has undergone thorough tests by Institute for industrial technology INTI - Argentina, TÜV Rheinland® - Argentina and AIDICO - Spain.
